

BIBLE TRUTH

No. 309
January/April 2024

'In the beginning
God created
the heaven and the earth.'

Genesis ch.1 v.1

OBITUARY
Dr Lynne Gray

With great sadness we learned from the Christian Israelite Church in Sydney of the passing of Lynne in Australia. For some years she was a valued contributor to *Bible Truth* magazine with scholarly articles such as 'Was there a Census' published at this time of year in 2018.

She was born into a working-class family but at school was assessed with a 128+ IQ and later was the only girl in the Senior Physics class. From then on her academic career blossomed and she gained her degrees in Theology and Teaching before concluding with a doctorate in Philosophy. Truly these achievements bore out her faith first instilled in her by her father but later shared by her with family and friends. But she was no bore. She brought up a lovely family with plenty of love and humour no doubt recalling the days of her wild youth when she accidentally dropped hair dye into the bath water thus colouring her whole body purple!

We share some of the grief of the loss with her husband Rodney and offer our condolences to all of the family.
